

Don't Get LOC-ed Out!

What is the NTSB's Most Wanted? What Causes Loss of Control? What can you do to avoid loss of control? How can Angle of Attack (AOA) indicators help you? This very important program will provide information on how to avoid loss of control by recognizing the beginning of stalls and spins. It also gives an overview of some AOA indicators available. NTSB statistics show the accident trends for airplane loss of control accidents. A Pancake breakfast starts at 8:30 am please see additional information for details.

Directions: From Route 313, take Old Easton Road Northeast to the Doylestown Airport entrance, at parking lot look for the "Pole Hangar". Follow your nose

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
